# DESIGN

Global, previously named Kismet, looks beautiful at first glance, yet it takes a longer look to discover her many fascinating details. She was delivered in 2007 by Lürssen, with exterior design by Espen Øino International and interior by Reymond Langton Design.

Her overall look is bold and confident, with a combination of contemporary and classic elements and an Art Deco influence.

In 2016, Global underwent a refit that lengthened her by nearly 6 meters. She is the 43rd-largest yacht built by Lürssen.

The logo for Lürssen, featuring a crown icon above the word "LÜRSEN" in a bold, serif font, all contained within a black rectangular box.

# INTERIOR

---

With six decks and a 12.8-meter beam, Global offers generous space for accommodation and entertainment, including four guest cabins, a VIP cabin and an expansive owner's suite as well as a cinema saloon, owner's office with lounge area, wine lounge with a bar, seating area, dining area with 18 seater dining table, sauna, steam room and spa room with a massage table.
